Subject: Re Jackie Trad's Abortion Bill
Date: Wednesday, 5 September 2018 8:44:38 AM

I would like to ask you to consider rejecting this bill.

The bill allows for abortion up until birth for any reason. Once a woman is pregnant, a baby has to be born. Taking the life of the baby doesn't make the birth easier, but introduces more risk to the mother, both physical and mental.

Part 2, s6

Doctors must be able to make conscientious objections, by not performing the abortion, or referring the patient to another doctor.

Fathers should have the right to bring up their child if the mother doesn't want this responsibility.

Please reject this Bill in full.

Beverley Hawes
