**Subject:** Re: termination of pregnancy bill

[REDACTED]

[REDACTED]

I am writing with concern regarding the Termination of Pregnancy Bill before parliament at present.

I find many aspect of the proposed bill extremely concerning. Of the most concern is that full term abortions would be allowed, even for social reasons. I find that this is unacceptable and in fact barbaric.

I am also very concerned that doctors will have to refer to another doctor if they have a conscientious objection. This amounts to a denial of freedom of conscience and is anathema in a democracy.

As a concerned citizen I am hoping that this atrocious bill is not passed.
