Subject: Queensland abortion bill

To Whom It May Concern,

I am writing to you pleading to stop this newest abortion bill going through. The fact of the matter is that abortion is killing babies. I just don't know how this is even being considered. In years to come, I want to be living in a state that stood against such genocide. How can we possibly explain this to our children? Where is our moral compass? If you end a life by stopping a heartbeat, how can you say that a baby with a heartbeat is not alive? Please, please, please stand up and say no to abortion. Don't be fooled into thinking that this is what the people want. This is a minorities opinion and they seem to have pull for some reason.

Warmest regards,

Beth Vardy
