[REDACTED]

To whom it may concern.

Just read what this bill is called....

LATE TERM ABORTION BILL.

If someone you cared about had a miscarriage at 22 weeks, had to deliver their dead son or daughter, would you feel empathy? A sense of sadness?

Why?

Because it was a human life.

Because that mother lost her child.

How then could you possibly say it is ok to kill that child before they were born?

This is not ok and you will be seriously held accountable for whatever the decision is made will be.

God knows all and sees all. He also knows the hurt women are going through to even consider abortion at all.

They need resources and education and to know they have options and help.

Where a child is not wanted, that child would be loved and cared for deeply by those who cannot have children.

Offer these women the choice of life and not death.

Please.

We plead with you.

Caitlin Crampton
