**Categories:** Submission

Dear Sir/Madam

I'm writing today to ask that the Termination of Pregnancy Bill not be allowed to become law.

Not only is it detrimental to a pregnant woman's mental and physical wellbeing, (as it's not just a matter of "getting rid of some foreign cells" in her body - woman have later suffered medically and had regret and deep depression post abortion), but also it is the termination of a helpless human being's life - one without a voice and who should feel safe in the environment of the womb.

I ask that you would not allow the sacrifice of the most vulnerable in our society to happen!

Yours sincerely

Carmel Musumeci
