**Subject:** Abortion bill  
**Categories:** Redact, Submission

The abortion bill is murder, thousands would like to adopt babies. And this bill is nothing but murder. The qld government will have blood on their hands. No one has the right to take another life ,a babies heartbeat is life and this is nothing but murder. I cannot even collect a birds egg without being arrested for doing so. There are many ways to stop getting pregnant , stupid people who make a judgement without taking precautions , when having sex ,need to be responsible for their actions or make a childless couple who cannot have children very happy to have a child to adopt, do not pass a bill like this ,let us be a stand out state that respects life not takes it. Stop this deadly bill from happening now. Delia. Kronk. [REDACTED]
