**Subject:** Abortion

Dear whoever this concerns,

I am a mother of three children a grandmother of six children and a great grandmother of three children. I am sorry but I do not agree at all with long term abortion I think it is absolutely disgusting and I think it is murder. I read that a baby was aborted somewhere in the 30 weeks mark and because the baby breathed by itself and was not going to die the doctor [REDACTED] That is inhimane and insane. It makes me feel sick.

Please don't go ahead with late term abortions. There are so very many childless couples who would LOVE to have a baby to call their own.

I cannot tell you how disgusted I am with the politics in this country. I will not be voting for Labour, LNP, the Greens (never) and will vote according to the values of the person running for election.

Please don't do this awful thing to unborn babies, they are alive, they aren't things.

Very sincerely  
Diane Thomas
