To the Committee Secretary,

My name is Evelyn R. Richardson and I live in [REDACTED]. My email is [REDACTED] and my Mobile phone number is [REDACTED]

I am horrified that it would even be considered to change the abortion laws to allow the killing of unborn babies until birth. Any abortion is horrendous but the proposed new laws are beyond even that. This new law is evil and only those with depraved minds could consider it. Please change this terrible proposal and guard the lives of unborn children.

Yours
Evelyn Richardson
