Subject: Termination of Pregnancy Bill 2018
Categories: Submission, Saved in Objective

Dear Chairman and members,

Please vote against the termination of pregnancy Bill. It is totally morally wrong. I am very grateful that I was conceived out of wedlock 80 years ago. If I had been conceived in the last 20 years I probably would have been killed and never had a life at all. I have raised 4 children and they and myself have been model citizens in productive jobs and volunteers in the community, myself for 60 yrs.

There are very good contraceptives these days so please end this murderous termination bill

Thank you,
Elva Shumack,
