Prevention Committee  
**Subject:** Qld Abortion Bill  
**Categories:** Submission

There is no place in a civilized nation for the killing of unborn children for any reason except where there is serious danger to mother.

Then only if the mother agrees.

Do not pass this bill. It would set us lower than the most primitive of societies despite our education and sophistication.

No good can come to the nation or our state by us becoming the worst that we can be.

Graham Blair
