Subject: Abortion Bill
Categories: Submission

Dear Sir/ Madam,

I am writing to express my opposition to the proposed abortion bill. I cannot comprehend how you can propose to destroy lives (babies after 22 weeks gestation) at the same stage of pregnancy we strive save the lives of babies at risk. I believe for a person old enough to willingly engage in sex (thus conceiving a child), some level of responsibility must follow. We must consider the rights of the innocent/powerless child to have the chance to live their full life and not create laws that further destroy this right.

As a voter, I will not support my Labour candidate is this Bill is not abolished.

Thanks,

Glenys Rathjen
