Subject: The abortion bill before the Queensland Parliament

To Whom it May Concern.

I wish to voice my absolute concern regarding the current abortion bill before Parliament. Every single human being starts life at conception, that's you and I obviously. These babies/human beings from conception deserve a life and therefore I stand on the side of life.

We as a society need to support women who have found themselves in a situation where to be pregnant is very difficult but that there is an alternative to abortion. Many of these women will bear the scars of the guilt and loss for the rest of their lives.

Do we want to become the same type of state as Victoria, I hope not?.

Regards,

Glenice Stephenson,
