Subject: Appeal to vote against the termination of pregnancy bill 2018

I am writing to urge you to vote against the termination of pregnancy bill 2018.

This bill allows for DIY abortions (Park 3, S10) which is an extremely dangerous act to perform. This will greatly put the mother at risk. This bill also allows for abortion up until birth for any reason, which is extremely unfair to the unborn child. Mothers may also be coerced or forced to abort their babies unwillingly under this bill.

Please be very careful in making your decision. I see the passing of this bill will bring significant detrimental impact on our society.

Thanks for your kind attention.

Regards
Helen Mok
