Dear Sir / Madam

I am writing to voice my deep concern regarding the Termination of Pregnancy Bill that is currently being introduced into the Queensland Parliament.

To potentially condemn thousands of innocent babies and refuse them the chance to experience independent life is appalling.

Queensland can make a stand to do what is right.

WRONG is WRONG even if everyone is doing it, and RIGHT is RIGHT even if no one is doing it.

There is an increasing number of fertility issues with would be parents and there are thousands of childless couples who would be willing to give a home to the child whose mother is unable to care for them.

In Queensland we have a great emphasis on child protection and safety for our children - this should also apply to a child embryo or foetus.

The absence of life is defined as when there is no longer a heartbeat - the beginning of life is as soon as there is a heartbeat.

Let's make a stand to value LIFE.

Kind regards  
Ineke Knight
