To the Health Committee,

I present my submission with regard to the Termination of Pregnancy Bill 2018.

I am opposed to this bill for several reasons, firstly because it allows abortion for merely social reasons up until full-term, and this clearly gives no rights to the unborn baby. Neither do fathers who may wish to keep and care for a baby, have any rights according to this bill.

The bill also poses problems for medical practitioners who conscientiously object to abortion. It is clearly wrong to force such doctors to complicity. (Part 2, S8)

This bill is extreme in what it allows and what it enforces. It makes the taking of a life far too easy.
