Subject: Abortion Bill
Categories: Submission

Please do not vote for the termination of pregnancy bill 2018 (murdering defenceless children bill).

I shouldn't even have to explain the reasons why I am asking for this, as I'm sure no one actually wants to murder humans.

For some reason some people think it's not murder if the human hasn't emerged from the womb yet.

And yet the same people would be filled with joy at incidents such as a premature birth at 5 months old that happened recently, and doctors were able to save its life. Imagine if this beautiful baby was murdered legally instead!!!

Please use common sense and don't vote for murder.

Thanks,

Jason Davie
