**Subject:** Abortion Bill  
**Categories:** Submission

Please oppose the facilitation of abortion in Queensland.

Have we learnt nothing in Australia? We need to arrest decline of family structure, loss of discipline, powerlessness of police and teachers to control recalcitrants, lack of a sense of responsibility with an over emphasis on personal rights etc.

Facilitating abortion and the deaths of over 60,000 fetuses a year and the attempt to stem this decline with increased migration intakes makes little sense apart from the failure to show due reverence for human life.

Yours sincerely,

John Terry
