**Subject:** abortion  
**Categories:** Submission

We cannot stress strongly enough our support for the life of a baby. A baby's life starts at conception. We ask the question 'Why is a baby called a foetus when he/she is not wanted but it is called a baby when he/she is wanted?'

A baby is a human being and deserves life and dignity from conception, not conceived just to be murdered!

Yours sincerely,

Ken and Ann Myatt,
