Subject: pregnancy termination bill
Categories: Submission

I wish to convey, in the strongest possible sense, that I am opposed to the proposed legislation.

I agree that where the mother's health is at risk to carry a baby to full term, yes, there maybe cause to end the pregnancy early on.

It will be a very sad day for our society if we treat life with so little respect and end the life of a healthy baby of more than 22 weeks, just because the gender was not what was wished for, or it was not financially possible for the mother to raise the child.

There are many couples desperately wanting to adopt a baby.

I trust you will consider the voices of the unborn children in this matter.

Yours sincerely

Lyn Backhouse
