Subject: NO to Jackie Trad

NO to Jackie Trad's preposterous idea.

It is absurd that a country would condone abortion - especially late term abortion... When that same country would convict someone with a double homicide if they were to kill a pregnant woman.

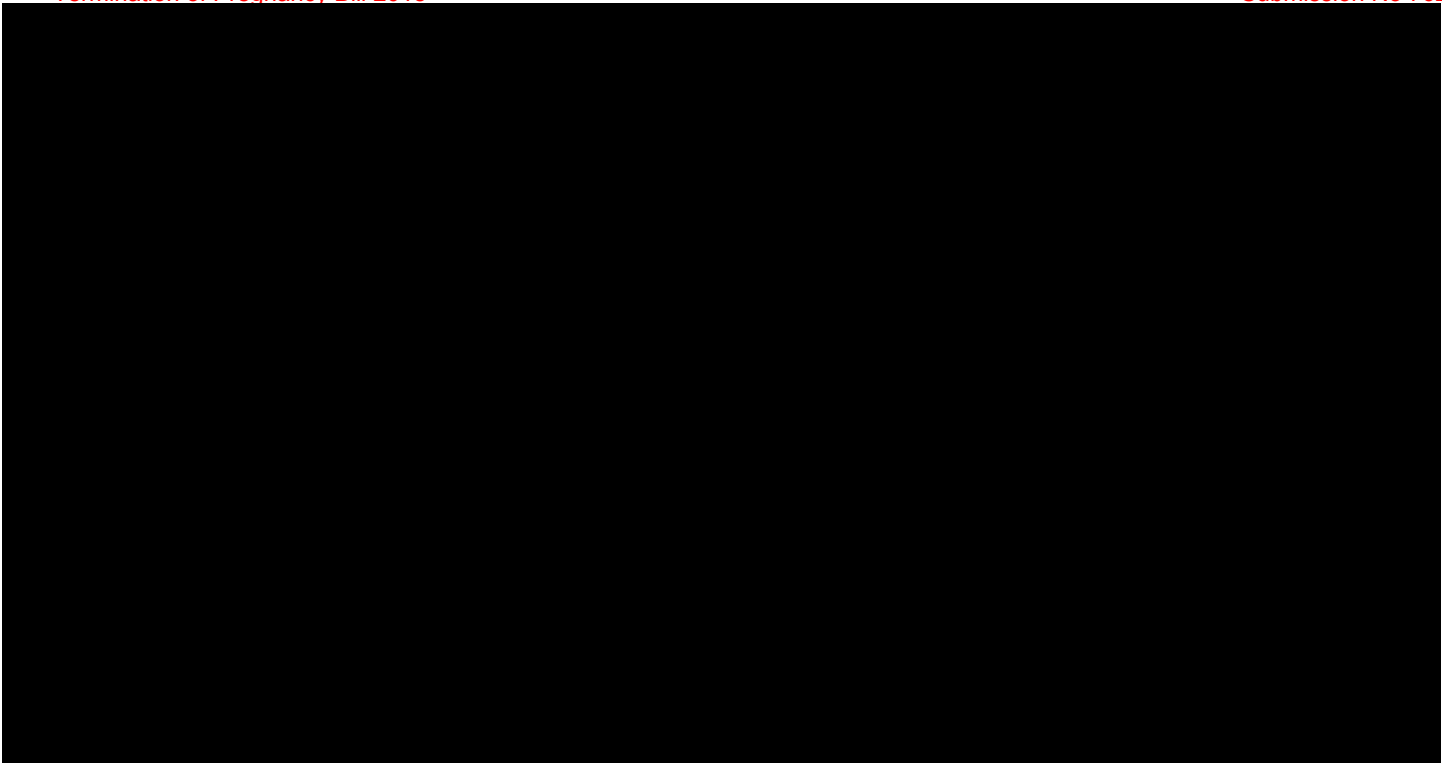

Within a well educated society, I believe it is a highly unacceptable practise to abort a late term baby.

And with all the science & technology today we know beyond a reasonable doubt that the life of a baby does not start outside the womb.

Any government that would agree to such a law as Jacki Trad is trying to impose is not a government I want to see running this or any other country !!

Have a look @ 19weeks in the womb Jackie Trad!!

Even 119 years ago they were smart enough to know a human life was a human life.
