Subject: The Termination of Pregnancy Bill 2018
Categories: Submission

To Whom it may Concern

Dear Sir/Madam

I would like to express my deep concerns about allowing termination of pregnancy up to 22 weeks.

There is so much pressure for young women to terminate their pregnancy through media, parents, boyfriends & friends. Also fear for how would they cope raising a baby when they are so young themselves and doing it alone, but there is so much help and support now for young woman and also counselling to help young women to make right choices to keep there babies instead of going through an abortion.

Also what about the baby!! Who can speak for the unborn child!! The baby is already formed and growing , how can we say its okay to kill this baby because we don't want it or its not the right sex.

I have heard members of Parliament say we need to get with the 21st Century. It doesn't matter what century it is, Abortion is still killing a precious life of a baby.

Please reconsider this Bill carefully and please have a conscience vote.

Kind Regards

Linley Mason
