Subject: Termination of Pregnancy Bill
Categories: Submission

Dear Committee,
Re:Termination of Pregnancy Bill 2018.

It seems ludicrous to me that an issue that has had so much negative feedback is still on the Labour Government agenda. How many times must the voting public say NO for the Government to get the message???

One other point: how hypocritical is it for the Health practitioners of Qld to bend over backwards to save babies who are born prematurely -- an in another room they are callously killing an unborn baby because the parent/s don't want the child?? How can they justify that? It's a 'baby' if it's wanted, it's a 'foetus' if it's not??

Come on people, open your eyes. See the truth. It's a life if it's being terminated. It's a life if it is being saved. Either way it's a LIFE.

I beg you, please do NOT pass this Bill.

Yours respectfully,
Margaret Bunce
