Subject: Qld Abortion Bill tabled by Jackie Trad

To whom soever it may concern:

Dear parliamentarian,

As a concerned citizen I'm making a plea on behalf of the unborn child not to decriminalise the abortion law that has been tabled again in the Queensland parliament.

It is a crime to murder or take the life of another . So it applies as much to the woman who is a carrier of that life but not the giver of the life within her.

As a matter of conscience and governing justice the unborn should have a voice to defend in us the guardians of life and the future generations to come.

Standing forLife

Molly Joshi
