I ask you to please vote down this termination bill as it does not care or look after mother or baby..The headlines in the paper lately was where a man got double murder for killing a pregnant lady..So it's murder in the eyes of the law..The bill says nothing about informed consent.Women need to know the possible impacts and what the process actually involves.They need proper counselling before the termination and they also would require a cooling off period for 3 days..A scan of the baby should be shown to them at no charge.Once again I ask you to vote NO to this termination bill 2018.
