Good morning

I am writing this email to bring to your attention my views about abortion.

Life is a gift from God and no one has the right to terminate it.

Life is present from the womb to the tomb. It doesn't matter how young or old the person is.

A vegetable starts growing by sowing a seed. We don't uproot a small seedling and expect to have fruit.

Likewise Life starts at its inception. My point is that no matter how far the pregnancy is, abortion is killing that baby inside of the womb.

We need to educate, give support, encourage pregnancy to be carried out to term and support women who are finding it hard to comprehend that they are carrying a child and might face difficulties when that child is born.

Abortion is not the answer. The trauma that faces women who carry out abortions is a lifetime scourge.

Australia and many prominent Australians are ending lives of innocent unborn and elderly and as a Catholic, I urge you not to vote this Bill.

I choose to obey God and I am pro life and I encourage you to do the same. Just remember, that the authority you have on our State had been given to you by God himself.

Let us think seriously and act on our conscience and not please pro-abortionists and approve to terminate the lives of innocent ones.

May the Lord bless you all and guide you to govern our State according to His Holy will.

Prayerful greetings

Sr Pauline Bonavia - On behalf of the Franciscan Sisters of the Heart of Jesus
