Dear Sir / Madam,

As a citizen of Queensland, I'm deeply concerned about the proposed Termination of Pregnancy Bill currently before our parliament.

How horrific to think that we are even contemplating this issue.

Human life begins at conception and a separate individual human being is formed in the mother's womb.

Medical practitioners are doing remarkable things to save the lives of children and now at the same time our government wants to make their murder legal. This is hypocritical.

Please accept my protest as representative of many more who have not written.

SAY NO TO THIS BILL TO MURDER THE UNBORN.

With thanks for reading and noting this,

Peter Geyer
