Dear Commission,

It is with great sadness that I read of the proposed changes to the laws on the early termination of pregnancy. My heart bleeds for the thousands of young Queenslanders who will be denied a change to give life a go simply because someone has deemed that an inconvenience. How can it be that we have stooped to the level where we take human life so lightly.

Please take into consideration the life of the baby when you are investigating the law changes, and make every effort to protect the lives of those whom you have the power to help. The mother can be helped in many ways, such as support, counselling, and the love of those around her. But the baby has only one chance, and that may depend on you!

Yours most sincerely,
Phil Mueller
