Subject: Termination of Pregnancy Bill 2018
Categories: Submission

I'm a mother and grandmother. From inside of me human life was formed and entered this world according to the wondrous law of nature . Humanity agrees with this fact . However humanitarians, the proponents of the Termination of Pregnancy Bill 2018, do not agree with this reality and endeavour to place themselves not only above humanity but above the law of nature . This is madness .Please support a culture that fosters life .

Mrs Pamela Royal
