Subject: Termination of Pregnancy Bill 2018
Categories: Submission

I believe that God gifted men and women with the ability to create new life. Each life is precious and deserves to be protected from their creation in the womb to their birth and beyond. As a Christian I believe that from creation a new human is given not only bodily life but also a soul to live from that time and for all eternity. We are custodians of this beautiful world that has been passed onto us. However, not many are concerned for the victims of wars and other tragedies in many parts of the world. They are too busy looking after Number One – me, and having a good time. Meanwhile we have murders, rapes, drugs, bashings, frauds and robberies occurring daily. Abortion is a horrific crime. It is the killing of the as yet unborn. To me,(and I am sure many others) there is no difference between killing an unborn child and the murder of a one year old baby. I am against this proposed Termination of Pregnancy Bill.
