**Subject:** Abortion legislation  
**Categories:** Submission

Dear Sir/Madam.

My wife and I find the proposed laws absolutely abhorrent. We believe that they go too far and clearly lead to the possibility of young Australians being killed while often failing to deal with the social problems leading up to the supposed need for an abortion.

We ask that the proposed legislation be put aside and new legislation be drawn up that severely limits the use of abortion to only when the life of the mother is placed in jeopardy because the birth of the baby.

Yours sincerely,

Robert and Margaret FRASER
