Subject: Jackie Trad's Abortion Bill
Categories: Submission

Good Morning

I would like to add our condemnation of this abortion bill that Ms Trad is to present to the Queensland Parliament.

It is a sad state of affairs that a government in a civilized society produces a Bill that condones the murder of innocents by law.

Clearly after 4 to 5 weeks the foetus is distinguishable as human and at 22 weeks can actually survive outside the mother

Abortion is also another way for gender selection – if you do not like it – get rid of it. We need to do more to keep the unprotected, protected

This is a deeply disturbing turn of events in Queensland and indeed for future humanity.

Yours sincerely

Robert and Wendy Andersson
