Subject: Proposed Abortion Bill

I am very concerned about the proposed abortion bill - I do not support it.

Human life is to be protected and valued above all else.

This proposed bill would mean it would be easier to obtain an abortion (social reasons would be accepted) and it also encourages abortions (allowed after 22 weeks).

Please protect the voiceless - the unborn need us to speak for them. Please do not allow this bill to go through.

Regards

Susannah Hugo
