Dear Sir/Madam

Today I'm writing to ask that the Termination of Pregnancy Bill not be allowed to become law.

It is detrimental to a pregnant woman's mental and physical wellbeing, (as it's not just a matter of "getting rid of some foreign cells" in her body - woman have later suffered medically and had regret and deep depression post abortion).

It is also it is the termination of a helpless human being's life - one without a voice and who should feel safe in the environment of the womb, it should have rights to a life as we who are living already on this earth have.

I ask that you would not allow the sacrifice of the most vulnerable in our society to happen, please protect them!

Yours sincerely
