Subject: proposed Bill to legalise abortion
Categories: Submission

TO:
The Committee Secretary
Health, Communities, Disability Services and Domestic and Family Violence Prevention Committee

FROM:
Rev. Stefan Slucki

[REDACTED]

Dear Committee members,
I urge the committee not to proceed to enshrine the legal recognition of the practice of the termination of pregnancy, abortion, in Queensland State Law.

I understand the motivation for doing this has, as part of its reasoning, the relief of mental cruelty experienced by vulnerable young women. Evidence from individuals I am aware of tells of the mental harm done by experiencing such a violent procedure!

I would urge, instead, of the expansion of services of child-support and/or adoption services.

To sanction murder—for that is what abortion is—is never right!

Yours sincerely,
Stefan Slucki.
