**Subject:** Termination of Pregnancy Bill 2018  
**Categories:** Submission

Hi,

My name is Tania Elliott from [REDACTED]

I oppose this bill especially the following:

- The bill allows for abortion up until birth for any reason.
- The bill allows for sex selective abortion.

In my opinion life is created in the womb from conception and we should not be able to terminate that life in the womb just as the law does not allow us to terminate a life outside of the womb.

Thank you for reading this email.

Tania
