Subject: Pregnancy termination bill
Categories: Submission

To whom it may Concern,
Life begins at conception, as any woman would agree, as all scientist would agree.
Human life is to be protected and valued. It is the responsibility of those elected to power to legislate for the people for the better good.
The majority of citizens of QLD do NOT agree with legalising abortion. It IS killing a human life - one that is the most vulnerable in our world, one that is in need of our PROTECTION.
All of our citizens need protection and help, not extermination because of inconvenience.
I plead the case for the unborn, and request that this legislation be recognised for what it is - the legalising of killing of innocent human beings No civilised society can expect anything but chaos, if they legislate to kill certain members of their society.
Trudy Ramsey
