

1/17/18

Central Secretary
HCDSDFVPC
Parliament House
George St
BRISBANE Old Road

Mr Hanson

I write to you in response to
proposed changes to ownership
of pharmacies.

I am a 75 yo who relies heavily
on medication prescribed by
my chemist & would be
concerned if that process was
handed over in any way to large
organisations that would more
likely be looking to increase
their profits than interested in
my well being.

I would also be concerned
that the number of chemists
may be decreased & that
would also affect the first
point of call for their clients
when health problems occur.

I hope my concerns assist in
in coming at a favourable
result for our chemists as if
it went the other way it would
adversely affect many.
I apologise for my scribble as
my arthritis is acting up today.

Regards

Henry Vane
