Dear Mr Harper MP

**Health Practitioner Regulation National Law and Other Legislation
Amendment Bill 2018**

Thank you for the opportunity to make a submission to the Committee in regards to the Bill.

The Royal Australasian College of Medical Administrators (RACMA) is one of the specialist medical colleges of Australasian and last year celebrated its 50th year. RACMA is unique in the world as a medical college which provides medical leadership education and Fellowship of RACMA results in recognition by the Medical Board of Australia as a medical specialist.

RACMA Fellows and members as specialist medical leaders occupy a primary role in the clinical governance and credentialing of medical staff, including determining scope of practice on a case by case basis and ensuring the health and welfare of the medical workforce. Therefore, RACMA supports a regulatory system that ensures medical practitioners seek expert medical assistance when required.

On that basis RACMA supports the amendments proposed by the government of Western Australia.

Please do not hesitate to contact the RACMA Chief Executive on [REDACTED] if you require any further assistance.

Yours faithfully

Associate Professor Alan S C Sandford AM
President
