

Subject: Please oppose Rob Pyne's evil Abortion Law Reform Amendment Bill

Dear members of the committee of enquiry,

We urge the committee to actively recommend against Rob Pyne's Abortion Law Reform Amendment Bill 2016. This evil bill aims to make it even easier to kill defenceless preborn babies in Queensland and, if passed, their lives would be stripped of all legal protection until after birth.

Other states have shown where abortion on demand leads. In Victoria sex-selection abortions are now easily procured with the following article, for example, giving an account of the killing of two healthy twin boys simply because the mother wanted a daughter instead (<http://www.heraldsun.com.au/news/parents-want-right-to-choose-their-childs-gender/story-e6frf7jo-1225983877669>). Similarly, Dr Mark Hobart, a Melbourne GP, has also brought to light the case of another couple who came to him: (<http://www.heraldsun.com.au/news/victoria/melbourne-doctors-abortion-stance-may-be-punished/story-e6frf7kx-1226631128438>). He refused their request for a sex-selection abortion, of course, but the couple found it all too easy to go on and find another doctor who would refer them to an abortionist because there is simply no legal protection for unborn babies in Victoria.

We hope the committee agrees that these children should have been protected. Please report to parliament to reflect this and impress upon MPs their moral obligation to protect the most vulnerable members of society – those who cannot otherwise defend themselves.
