Research Director. Health, Communities, Disability and Domestic and Family Violence
Prevention Committee

I am contacting you to state my opposition to abortion in general and more so to make
abortion even more available. The killing of human babies is the ultimate child / family
violence crime and it is difficult to understand any acceptance of this horrendous act.
These costs are paid by our taxes and at the same time we have taxpayer money spent on
IVF for couples desperately wanting children.

Please restore some morality and accountability to our society.

Jim Gundry
