Abortion Reform Bill
Saturday, 25 June 2016 7:31:56 AM

I am appalled that any human being on this planet, especially any member of any parliament serving the public can be allowed to introduce a bill to legalise the murder of human beings by choice. The person introducing this bill should now be in court trying to justify why they should not be sent to prison.

ABORTION IS MURDER OF A HUMAN BEING - why can't people understand that. What rights does any human being have, especially a pregnant mother, to decide she will have someone kill her baby. What in fact is Woman's Rights? Our nation is considering taxing everyone in the form of a levy to protect woman from abuse in the home and family sphere and yet this same woman, under this Bill can have the right to not just abuse her unborn baby by smoking or drinking, etc during pregnancy but, no, she can decide to have her baby brutally murdered (cut to pieces) at the drop of a hat under this Bill. Isn't this the epitome of hypocritical. What about protecting the mother's health and well being during the process of murdering her baby - it's the mother's choice whether she takes the risk - hang on what about the UNBORN'S RIGHTS? The mother has the right to be protected from hurt in her home - shouldn't her innocent and defenceless baby have equal rights for protection from death in its home (the womb)?

Where is the logic, common sense, let alone human decency in that? Protect the mother from being hurt but it's ok to hurt (OH NO.....DID YOU SAY KILL,!!!) her baby.

C'mon Queenslanders - pick yourselves out of the gutter.

Abortion currently is a crime in Queensland and should remain so - I AM ADAMANTLY OPPOSED TO THIS BILL - STOP THIS BILL
