Re Abortion Law Reform.

To whom it may concern.

I want to make my view known that I totally oppose the proposed Abortion Law Reform (Women's Right to Choose) Amendment Bill 2016.

This will allow unborn children to be killed right up to the moment of birth; this constitutes murder.

This bill does not take into account the physical or psychological effects of abortion on women.

Doctors, nurses and health workers may be coerced into performing procedures that would go against their consciences.

Yours sincerely

Kay Walters (Mrs.)
