I am very concerned about Mr Pyne's proposed changes to the abortion law which will allow abortion to be considered legal right up to the day of birth.

I OBJECT TO THESE PROPOSED CHANGES and want you to record my objection. My objection is based on my understanding that abortion can create serious psychological damage in women, and does not offer any real assistance or support to women who see abortion as the only answer to their desperate situation.

Also, doctors take an oath to save lives, not to destroy them and could cause doctors and nurses ethical dilemmas which could then affect them psychologically.

Regards
