Proposed abortion law reform

What moral point justifies arbitrarily snuffing out a baby's life 2 hours before it is due to be born, but mourns arbitrarily snuffing out the life of a 41 year politician, police officer, teacher, mechanic or surgeon?

The latter results in outrage throughout the Western world, and typically leads to a criminal conviction and life imprisonment. The former rates not even a blip.

I am outraged by both such events, and call for the Queensland Government to reject the bill on abortion currently before the house.

Royce Sadler
