---

Hi there,

My name is Jason Boon.

Please read my submission to put a stop to abortions. Or at a minimum throw this bill in the bin!

I will keep it brief with some points for why abortions should NOT continue let alone to the extent that is being put forward. The details of the bill actually makes me feel incredibly sick.

1. My wife was sick and she went to hospital with glandular fever. This not long after we found out that she was pregnant with our 3rd. A doctor was looking at her liver with a ultrasound and while there checked for any baby activity.

You know what!!! We were able to see a heartbeat!! At barely 4-5weeks.. Now how can you destroy a human life inside or outside of the womb? There is no difference. Our baby is alive!!

2. For a woman to make an easy decision to end a baby humans life without a thought is just inhumane. Due to their own errors in judgement someone else has to pay the price (the BABY!!)

3. "Would allow unborn children to be killed right up to the moment of birth"

When a baby is killed at this age. There arms and legs are ripped off their bodys. While the baby is wriggling around in pain they slowly disembowel and dismember the child from inside of its mother. How sick is this. Sounds like something from a 3rd world country.

How about we teach women to make smart life choices. Parenting help and guidance. Is there enough being done there?

4. A friend of mine had an abortion a while ago.. It struck here afterwards and only recently. That her baby would have had his/her 1st birthday. I could only imagine how crushed she feels inside that she let this happen. She keeps alot of it bottled up. If abortion was not allowed she would have a beautiful baby in her arms.

Yet the government allows women to do this. Without any help afterwards. But how can you calm the guilty mind of a murderer?

This bill is absolutely atrocious!! To lower our level of government to allow this barbaric treatment of women and unborn ALIVE babies..

This has to stop!!

May God bless you,

Regards,  
Jason Boon
