Helen Glen

[REDACTED]

I am opposed to this bill for a number of reasons. Women who experience an unexpected pregnancy deserve support, so that they can continue their pregnancies. Many women and men suffer greatly after terminating their pregnancies. I have met scores of women and men who have personally shared their stories of deep anguish and grief after a termination experience, - they are filled with regret and long for their missing children. I was adopted as a baby and believe it was my right to be born, I am grateful to my biological mother. Why can't we explore options so that babies can be born and not aborted. People are people, whether they are in the womb or out of it. I want to be part of a society that protects the vulnerable, rather than take their lives. This bill doesn't reflect community values. Let's protect our children, support their mums and find humane ways to care for the unborn.
