Proposed abortion law reform

A lady in another country asked her Dr for an abortion. She had a toddler sitting on her knee. The wise Dr asked, "Which child would you like me to kill?". The baby's life was saved.

I find it totally abhorrent that it is even being considered that a baby can be aborted right up to full term.

A toddler's murder is a crime. The killing of a baby in the womb is called abortion. In fact it also is murder.

I request that the Queensland Government reject the bill on abortion currently before the house.

Rhonda Sallaway
