I am overwhelmed by what this proposal may mean for the unborn child!  
I was adopted at six weeks as a result of someone raping my mother. She nearly had an abortion. I would not be here if someone had not changed her mind!  
I am a Pharmacist now and very active and fruitful in my community. I look after nearly 900 people in my church as the Pastoral Care Co-ordinator.  
I can only speculate as a professional on what disastrous outcome an abortion would have had on both my birth mother and myself! I have seen too many depressed women in my long career who have made the decision to abort.

Yours Sincerely,

Sue Watson
