To Whom It May Concern

Regarding the above, I am submitting my opposition to this proposed bill on the following grounds:-

- . it would allow unborn children to be killed right up to the moment of birth
- . there is concern about the serious physical and psychological effects of abortion on women
- . it could coerce doctors, nurses and other health workers into performing these barbaric procedures against their consciences
- . it dismisses the overwhelming opposition to changing the law
- . it fails to address the desperate plight of women who tragically see abortion as a solution.

Yours faithfully
