To all members of parliament.

All I am going to say is that Abortion is murder.

We have no right to kill anyone including a helpless child even while in the womb.

Women who claim this is my body I have the right to abortion is wrong in their argument, "because it is my body", no it's not, they are killing is a another human.

There are many other reasons why abortion should not be legal but the one I stated above is enough.

To all who pass laws other than to protect the unborn child I am truly disgusted and saddened by this great nations moral decline.

Please protect Queensland and Australia's future children.

Sincerely

Mike & Chrissy Goodridge
